Full-Stack Developer | React.js, Node.js & Express.js +91 9737930634
Pune, India LinkedIn | GitHub

Profile

Full-Stack Developer with a B.Tech in Information Technology and C-DAC PGCP-AC training, focused on building responsive web applications with React.js, TypeScript, Node.js, Express.js, REST APIs, and SQL databases. Developed TurfBook, a turf discovery and booking platform with customer and owner workflows, booking-conflict prevention, and pricing/analytics services. Comfortable with API integration, authentication, database design, debugging, and Git-based development.

Technical Skills

Frontend: React.js, JavaScript (ES6+), TypeScript, HTML5, CSS3, Tailwind CSS, Responsive UI
Backend & APIs: Node.js, Express.js, RESTful APIs, CRUD Operations, API Integration
Database & ORM: PostgreSQL, MySQL, SQL, Prisma ORM
Authentication: JWT, Role-Based Authorization, Input Validation
Tools & Testing: Git, GitHub, Postman, VS Code, Debugging, API Testing
Core Concepts: OOP, DBMS, Data Structures, Modular Code, SDLC

Projects

TurfBook | Turf Discovery & Booking Platform

- Developed a full-stack platform for discovering sports turfs and managing customer bookings and turf-owner workflows.
- Built responsive React and TypeScript interfaces with venue discovery, sport-specific listings, booking flows, and role-based dashboards.
- Created Node.js and Express.js REST APIs and used Prisma ORM with PostgreSQL for application data and booking management.
- Used PostgreSQL GiST exclusion constraints to prevent overlapping reservations and improve booking reliability.
- Integrated a Python FastAPI service for dynamic pricing, analytics, diagnostics, and MCP-based tooling.

Stack: React, TypeScript, Vite, Tailwind CSS, Node.js, Express.js, Prisma, PostgreSQL, Python, FastAPI

Smart AI & QR-Based Restaurant Management System | C-DAC PGCP-AC Project

- Built a QR-enabled restaurant management platform supporting customer, administrator, and restaurant-staff workflows for digital menus, ordering, inventory, staff, and offers.
- Developed REST APIs using ASP.NET Core Web API and C#, with layered architecture, Dependency Injection, and Entity Framework Core.
- Implemented JWT authentication and role-based authorization; added a Java Spring Boot notification service using Gmail SMTP.
- Integrated a React.js and Tailwind CSS frontend with backend APIs, then containerized and deployed the application on AWS EC2 using Docker.

Stack: React, Tailwind CSS, ASP.NET Core, C#, Java, Spring Boot, SQL Server, JWT, Docker, AWS EC2

Road Safety Alert System | College IoT Project

- Created an Arduino-based pedestrian safety prototype using LEDs and servo motors to automate vehicle barriers and pedestrian crossing signals.

Stack: C++, Arduino UNO, Arduino IDE, Servo Motors

Work Experience

Software Developer Intern | Nexprism May 2026 – October 2026

- Contributed to web application development, implementation tasks, and ongoing software maintenance within the development workflow.

Web Developer Intern | Txon, Pune 6 Months

- Built and maintained responsive web pages using HTML, CSS, and JavaScript, focusing on navigation and user experience.
- Debugged and tested web pages, helping identify and resolve functional issues.

Education

Centre for Development of Advanced Computing (C-DAC), Pune 2026
Post Graduate Certificate Program in Advanced Computing (PGCP-AC)

Genba Sopanrao Moze College of Engineering 2020–2024
B.Tech, Information Technology | CGPA: 8.3

Shri L.G. Haria Multipurpose School 2019–2020
Senior Secondary (CBSE, Class 12) | 70.2%

Shri L.G. Haria Multipurpose School 2017–2018
Secondary School (CBSE, Class 10) | 73%
